

Industrial Indicators of the Buenos Aires Province

This report presents the results for the month of
January 2014.

March 11, 2014

Summary

In January 2014, seven of the fourteen activities included in the Industrial Indicators of the Buenos Aires Province showed year-over-year increases in their levels of production. The highest increases were: Manufacture of basic iron and steel (113.3%), Manufacture of passenger and freight transport vehicles (32.4%), Production of cement (7.5%) and Production of milk and dried milk products (6.1%).

Conversely, seven showed declines in their level of production. The most important were: Manufacture of family cars and minivans (30.5%), Production of cookies and cakes (14.3%) and Production and processing of poultry (12.5%).

The following tables show the monthly, year-over-year and accumulated variation of the selected activities.

Table 1

Variation of selected activities
January 2014

Activity	Variation		
	Monthly	Y/Y	Accumulated
Production and processing of poultry			
Production of cold cuts			
Production of milk and dried milk products			
Grinding wheat			
Production of cookies and cakes			
Production of beer, malt liquors and malt			
Production of cigarettes and tobacco products n.e.c.			
Edition of newspapers, magazines and periodicals publications			
Manufacture of refined petroleum			
Production of cement			
Manufacture of basic iron and steel			
Manufacture of family cars and minivans			
Manufacture of pickup trucks			
Manufacture of passenger and freight transport vehicles

Variation of the Industry in January 2014 for selected activities

This report shows the performance of 12 activities, divided into 14 series that include: Production and processing of poultry; Production of cold cuts; Production of milk and dried milk products; Grinding wheat; Production of cookies and cakes; Production of beer, malt liquors and malt; Production of cigarettes and tobacco products n.e.c.; Edition of newspapers, magazines and periodicals publications; Manufacture of refined petroleum; Production of cement; Manufacture of basic iron and steel; Manufacture of family cars and minivans; Manufacture of pickup trucks¹ and Manufacture of passenger and freight transport vehicles.

Table 3 shows percentage variations (monthly, year-over-year, and accumulated) of the selected series for January 2014.

Table 3
Percentage variations
January 2014

Clanae Code 1997	Activity	Percentage Variations		
		Monthly	Y/Y	Accumulated to January 2014 inter-annual
15112	Production and processing of poultry	-1.2	-12.5	-12.5
15113	Production of cold cuts	15.3	2.9	2.9
15201	Production of milk and dried milk products	15.9	6.1	6.1
15311	Grinding wheat	21.4	-2.9	-2.9
15411	Production of cookies and cakes	4.1	-14.3	-14.3
15530	Production of beer, malt liquors and malt	6.3	-6.3	-6.3
16009	Production of cigarettes and tobacco products n.e.c.	15.2	0.4	0.4
22120	Edition of newspapers, magazines and periodicals publications	-3.6	-6.6	-6.6
23200	Manufacture of refined petroleum	-1.4	3.4	3.4
26941	Production of cement	0.9	7.5	7.5
27100	Manufacture of basic iron and steel	-20.2	113.3	113.3
34100	Manufacture of Automobiles			
	Family cars and minivans	-42.0	-30.5	-30.5
	Pickup trucks	-41.8	-1.8	-1.8
	Passenger and freight transport vehicles	-75.8	32.4	32.4

Provisional data.
